GOING THE EXTRA MILE: SERVICE IN THE MILE HIGH CITY

Presenting the 2008 Project: Days One & Two - By Scott Bryars

I hope that everyone had a great holiday and that everyone has a great time in the semester to come. Now, it time for everyone to start getting geared up for LSSP 2008! I am proud to be the first to tell you what we will be doing for two days during LSSP 2008. This service project will be an event that no Circle K'er will want to miss. After the completion of the project everyone will step back and see how much of a difference 150+ dedicated individuals can make.

This year, we will be working with Denver Parks and Recreation, who is really excited to be collaborating with us on this project. All LSSP 2008 attendees will be installing three large beach areas by the lake at Harvey Park. We will be doing everything from the ground up to build these beach areas. We will be clearing the area by pulling weeds, removing sod, and spreading sand. When we are done this will be an area that will bring joy to many people in the area and allow kids to have a safe and clean place to play.

I am sure that everyone involved will feel a great sense of pride and accomplishment. This project is what LSSP is all about; we will see a major difference in this community from our actions. The LSSP Committee is planning this great project - all you have to bring is yourself. LSSP 2008 is going to be a blast of fellowship and service. Don't miss out!

Got Feedback?

Don't forget! If you have ideas or suggestions for LSSP 2008, we can't implement them if you don't tell us about them!

Is there anything you would like us to know? Do you have ideas for evening social activities or small-scale service projects? Do you have questions or concerns about what you've read here?

THIS IS YOUR CHANCE TO HELP SHAPE LSSP 2008!

Respond to Chair Brinton Howerton (brinton@gwu.edu) and you might see your ideas implemented in Denver!

See you in Denver in August!

Switchin' It Up: The Third Day of Service!

- By Sheremy Cabrera

In the metro Denver area, there are six Boys and Girls Clubs within four miles of each other. After completing our beach building at Harvey Park, the LSSP group will be splitting up to visit each of these clubs to bring the kids a "Circle K Fun Day"! The Boys and Girls Clubs will be bringing their summer events to a close, and we are adding our unique spin on things. We will be setting up field day activities for the kids, from water balloons to relays to volleyball and more! And of course, a summer celebration would be incomplete without: ice cream! At each club, we will have some sort of ice cream social. Collaboration with the Boys and Girls Clubs is our way of diversifying this year's LSSP, and spreading our service beyond one organization. See you there!

Success on Facebook's Razoo Speed Granting

- By Caitlyn Nestleroth

CKI President Amanda Badali has emphasized since the start of her term that one can make a difference. This month, over 1500 Circle K International members and friends made a difference to LSSP by voting in Facebook's Razoo Speed Granting contest, winning the contest and raising \$1,000! This grant will be used to purchase tools for the Denver Parks and Recreation project and ice cream for the kids at the Boys and Girls Clubs. Thank you to all who voted for helping us make certain that one CKI large scale service project *will* make a difference!
