Executive Committee

The Executive Committee has worked diligently to finalize all recommendations for amendments to be included in the April Board Book. We intend for the information to be out as early as possible, so that we may educate the members on why these amendments have been suggested and why we feel they are crucial to our continued success. We plan on making educational materials available shortly and looking into media productions to explain amendments (at no cost to the organization).

Marketing and Kiwanis Family Relations Committee

The MKFR committee has kept going strong with meetings every other week. The committee took a small hiatus from the written out directives in an effort to push World Water Day and Six Cents as well as Kiwanis One Day. It was a much needed break from the original directives in order to get these things accomplished quickly. We are towards the end of our directives, and the task at hand now is to come up with what is next. Committee Chair Steph Wieland has been in contact with past International Board members who have served on the MKFR committee to receive useful files and other information.

Membership Development and Benefits Committee

MD&B has been doing a great job continuing to publish theBUZZ. We also will be holding a directives meeting to create new directives and will be continuing to dedicate ourselves to create officer resources and researching corporate sponsorships. The committee is also embarking on a search for possible corporate sponsors.

Service Committee

The Six Cents Initiative Pins have been ordered and should be ready for the districts governors to receive at Governor and Administrators Training Conference (GATC) Committee members have been informing clubs and district about Six Cents Day which will be March 22, 2008. The committee is also promoting Kiwanis One Day which is April 5, 2008. The Large Scale Service Project (LSSP) Committee has been working hard to find an awesome project, but has encountered some difficulties with partnerships in the Denver area. The committee members are diligently working to find a new project that will be able to accommodate the Circle K'ers in Denver.

All International Committees welcome ideas, comments, questions and concerns from all members of CKI. Please do not hesitate to contact any international board member. For more information about specific committees, please contact the respective committee chair.
